ESTRO
MILANO HANDMADE IN ITALY

Estro è l'evoluzione di una realtà artigiana nata dall'iniziativa di Giuseppe Sardone nel 1956.

Il desiderio di scoprire realtà nuove, in grado di farci percepire l'evoluzione continua del mondo creativo della moda e del design; la voglia di lasciarci coinvolgere in atmosfere ricche di stimoli cosmopoliti; la ricerca dell'eccellenza del MADE IN ITALY hanno motivato la realizzazione della sede di Estro a Milano.

Abbiamo conservato i valori del nostro territorio, esplorando le tradizioni artigiane della Brianza con l'obiettivo di creare uno stile unico, personale ed originale.

A cominciare dalla silhouette, sinuosa e dolcemente ondulata che è in grado di raccontare come dominiamo il movimento. Dinamismo questo, che rima con la corsa delle cuciture in rilievo e mette in risalto la generosa imbottitura della morbida seduta prima di sfilare in longilinei, raffinati piedi, disponibili nelle varianti in legno e in metallo.

Pelle e legno sono più che elegante matericità per un divano. Perché mettere insieme pelle e legno vuol dire evocare un modello archetipico di perfezione, tendere a un ideale di bellezza, solidità e comodità classico, eterno, senza tempo. Ed è quello che fa Toronto, con la versatilità di un modello che per configurazioni e varianti disponibili sa come adattarsi tanto ad ambienti ricercati quanto a spazi urbani e informali, senza mai però perdere eleganza e personalità.

Leather and wood are more than elegant components of a sofa. Placing leather and wood together evokes an archetypal model of perfection, striving for an ideal of beauty, solidity and classic, eternal, timeless comfort. And that's what Toronto does, with the versatility of a model that, thanks to the available configurations and variants, can adapt to both sophisticated environments and informal urban spaces, without ever losing its elegance and personality.

Un tributo al design razionale, guidato da una linearità minimale che disegna forme nette e squadrate. La seduta coniuga lo stile senza tempo dei modelli iconici a un rigore geometrico di marcata personalità. Al dettaglio ricercato e al gusto del particolare è affidato il compito di armonizzare ragione e estetica: la solidità dei piedi cromati, il lusso della cintura con fibbia che cinge un ampio bracciolo con colori a contrasto e le cuciture in rilievo lasciano indulgere il progetto razionale a una ricerca di bellezza mai barocca: una vera e propria rivoluzione di linee, forme e design che non assomiglia a nulla di già visto.

A tribute to rational design. Guided by a minimal linearity that draws clear, squared shapes. The seating combines the timeless style of iconic models and the geometric rigour of a striking personality. The task of balancing reason with flair is entrusted to the refined particulars and a taste for detail: the solidity of the chromed legs, the luxury of the belt and buckle surrounding an ample armrest with contrasting colours and relief stitching, all allow Cartesio to indulge in a pursuit of rare never baroque beauty: a revolution of lines, shapes and design that does not resemble anything seen before.

MODERN BEAUTY 087

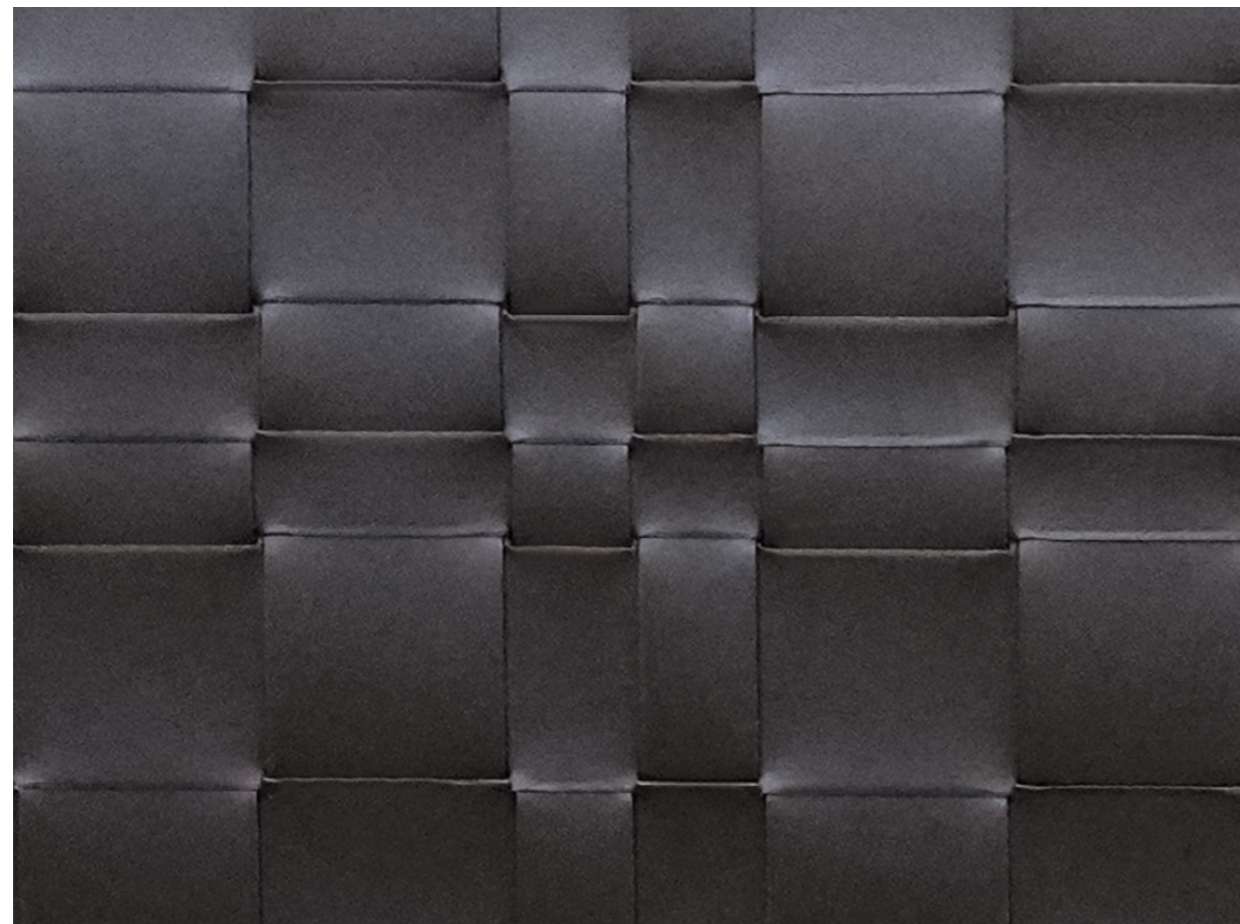

THE LUXURY SIDE OF LIFE

Autorevole interpretazione della tendenza contemporanea di un arredamento minimalista e funzionale e, allo stesso tempo, iconico tributo alla tradizione del design italiano. Il richiamo ad Andrea Palladio, architetto italiano cinquecentesco e teorico del classicismo funzionale, è consapevole omaggio all'ideale estetico di "perfetto accordo con la natura", qui interpretato con le sembianze di una seduta raffinata e moderna. I piedi bruniti, il caratteristico pannello in cuoio laterale, le raffinate lavorazioni geometriche, i bottoni e le impunture cesellano Palladio, preservandone al contempo un'estetica essenziale che concede all'accessorio il solo spazio necessario al confort tutt'altro che superfluo dei meccanismi reclinare.

Authentic interpretation of the contemporary trend towards minimalist and functional furniture and, at the same time, an iconic tribute to the tradition of Italian design. The reference to Andrea Palladio, a sixteenth-century Italian architect and theorist of functional classicism, is a homage to the aesthetic ideal of "perfect harmony with nature". Interpreted with the beauty of a refined and modern seat. The burnished legs, a unique side leather panel, refined geometric hand-crafting, and the buttons and stitching engrave Palladio, while preserving an minimal look that gives your space the necessary comfort, provided by the anything but superfluous recliner mechanism.

STYLISTIC RIGOUR 093

THE LUXURY SIDE OF LIFE

Con Tempo la ricerca del rigore stilistico che caratterizza l'intera collezione Estro Milano diventa valore assoluto. Pur non lesinando ricercate concessioni all'estetica, lavorando sul particolare prezioso, sull'eleganza di piccole e grandi attenzioni – dalle raffinate impunture al sofisticato gusto per i piedi cromati – è decisamente geometrico lo sviluppo del modello. Linee decise viaggiano perpendicolarmente, smussando l'incrocio netto dell'angolo retto in un ampio e confortevole spazio angolare. Generoso per seduta, imponente per presenza scenica, Tempo si chiude da un lato in un elegante bracciolo, lasciando l'altro libero da sostegni, aperto a posture più informali, come a tendere all'infinito.

With Tempo, the search for stylistic rigour that exemplifies the entire Estro Milano collection becomes an absolute value. Abundant concessions to a refined look, precious detail, and the elegance of small and large particulars – from tasteful stitching to the sophisticated chromed legs – the design of the model is decidedly geometric. Sharp perpendicular lines smooth the intersection of the right angle into a large and welcoming corner space. Generous comfortable seating, impressive for its stage presence, Tempo closes on one side in an elegant armrest, leaving the other free from supports, open to more informal situations, as if to strive for infinity.

QUALITY BEACON 103

Matericità al centro di un progetto estetico e di design che racconta la centralità dei valori di qualità e naturalezza nella filosofia Estro Milano. BALANCED CONTRASTS | 113

Tutto in Mia è ricomposizione di contrasti in equilibrio. Lineare e curvilineo contribuiscono a disegnare un'inedita forma di divano, l'accurata scelta dei pellami è guidata dall'intenzione di lasciar convivere differenti sensazioni tattili, mentre la giustapposizione di toni freddi e toni caldi diventa opzione cromatica in grado di conferire dinamismo e personalità alla seduta. L'eccellenza dei materiali lascia ampio margine a lavorazioni artigianali di alto livello, come nel caso delle cuciture a incrocio che punteggiano un bracciolo dai volumi assolutamente inediti. Una progettualità di design in grado di conciliare l'aspetto funzionale con un'estetica originale improntata all'assoluta armonia di forme, linee e colori.

Everything in Mia is a recomposition of balanced contrasts. Lines and curves contribute to the design of an original sofa. A careful choice of leathers is guided by the intention to allow different tactile sensations, while the juxtaposition of cold and warm tones is a chromatic option giving dynamism and personality to the seating. The excellence of the raw materials leaves ample room for high-level craftsmanship, for example the cross-stitching that punctuates an armrest with unprecedented volume. Mia is a design project able to reconcile the functional aspect with an original style complemented by the absolute harmony of shapes, lines and colours.
